

periHear^d

Turn your symptoms into a brief your GP will actually act on.

1 in 5 women say they've been brushed off. We built periHeard so everyone walks in prepared, and walks out heard.

Describe what you've been experiencing - how long, how often, what it stops you doing. Ramble if you need to.

How periHeard can help

[Check your symptoms](#)[GP Guidance with "Peri"](#)[Browse our Community](#)[Learn about perimenopause](#)

Perimenopause. *From symptoms to self-advocacy.*

THE PROBLEM

- **Barrier:** symptoms can be difficult to remember and hard to articulate in a ~10 minute appointment window
- Many **women in their late 30s-40s** struggle to advocate for themselves
- Recognition of diagnosis can be delayed

peri**Heard**

Walk in prepared. Walk out heard.

Perimenopause. *From symptoms to self-advocacy.*

OUR SOLUTION

- AI guided conversation backed by NICE guidelines
- Creates a symptom summary ready for GP appointment
- Suggests questions to ask their GP
- Helps patients feel prepared and confident to make the most out of their appointment

Walk in prepared. Walk out heard.
